

Autumn activities

Babies 2gether Poole Old Town Family Hubs

A group for families focussing on babies up to 18 months old.

The group is run in a relaxing, safe, calm space; the perfect environment to explore with your baby and meet other new parents and carers. There are lots of opportunities to try out activities to support your baby's developing skills such as physical development, communication and language and personal, social and emotional development. We even try out some early maths and literacy!

Sessions include songs and rhymes, story and book sharing, play activities, a talk time for adults (about an aspect of child development) and ideas for families to try at home.

Most importantly it's a time to have fun with your little one.
